**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1,2,7-9,12-15,25-27,29, and 30 are rejected under 35 U.S.C. 102(b) as being anticipated by Pugh (4,789,045).

Pugh (4,789,045) discloses a lifting sling comprising a plurality of cores (12,12) (Fig. 3) and a coating material, a polyurethane coating (Col. 1, lines 36-48) in a predetermined pattern.

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 3-6,10,11,16,25-27, and 30 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pugh (4,789,045).

Art Unit: 3652

Pugh (4,789,045) does not show the properties of the coating materials such as temperature, tensile strength, or made of other material, nylon. Accordingly, it would have been obvious to those skilled in the art to provide a material selection, such as nylon, and the properties of the coating materials on the Pugh's lifting sling (4,789,045) to provide a reliable sling.

***Allowable Subject Matter***

5. Claims 17, 18, and 28 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
